

## **316 Stainless Steel Casting Hinge 50\*50MM**

Find a huge selection of 316 Stainless Steel Casting Hinge 50\*50MM from China at POWER MARINE. We follow the quality of rest assured that the price of conscience, dedicated service. We have been specialized in marine hardware for more than 25 years. Our product is made of 316 stainless steel, which has good corrosion resistance. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

## **316 Stainless Steel Casting Hinge 50\*50MM**

### **Product Introduction**

POWER MARINE is a professional China 316 Stainless Steel Casting Hinge 50\*50MM manufacturer and supplier, if you are looking for the best 316 Stainless Steel Casting Hinge 50\*50MM with low price, consult us now! We follow the quality of rest assured that the price of conscience, dedicated service. 316 Stainless Steel Casting Hinge 50\*50MM has a longer service life in seawater, ultraviolet light and humid environments. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

### **Product Parameter (Specification)**

Product name	316 Stainless Steel Casting Hinge 50*50MM
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.
Packing method	Bubble bag+Wooden carton

### **Shandong Power Industry and Trade Co., Ltd.**

**Address:** Chengyang District, Qingdao, Shandong Province, China

**Tel:** [+86-15865772126](tel:+86-15865772126)

[+86-0532-83875707](tel:+86-0532-83875707)

**E-mail:** [andy@hardwaremarine.com](mailto:andy@hardwaremarine.com)

Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft container.
Warranty time	Support returns and exchanges
Payment term	T/T
FOB loading port	Qingdao China

Code	A mm	B mm	Thickness mm
PM4040A	38	38	3.9
PM4040B	40	40	3.9
PM5050C	50	50	3.9

### Product Feature And Application

The history of 316 Stainless Steel Casting Hinge 50\*50MM begins with the development and commercialization of stainless steel as a material in the early 20th century. Stainless steel is an iron alloy containing chromium that resists corrosion and oxidation. 316 stainless steel is a specific grade of stainless steel that contains additional alloying elements such as molybdenum, which

### Shandong Power Industry and Trade Co., Ltd.

enhances its corrosion resistance, especially in corrosive environments such as marine or chemical applications. The 316 Stainless Steel Casting Hinge 50\*50MM casting process involves pouring molten stainless steel into a mold and allowing it to solidify. This method can produce complex shapes and complex designs that may be difficult to achieve using other manufacturing techniques. 316 stainless steel cast hinges provide a durable and corrosion-resistant solution for a variety of applications. As metallurgy, manufacturing processes, and technology advance, the development and use of 316 stainless steel cast hinges continues to evolve. Today, 316 Stainless Steel Casting Hinge 50\*50MM are widely used in industries such as marine, automotive, aerospace, construction and construction applications.

## Product Details

Some key features of 316 Stainless Steel Casting Hinge 50\*50MM include:

**Corrosion Resistance:** 316 stainless steel is highly resistant to corrosion in a variety of environments, including exposure to salt water, chemicals, and harsh weather conditions. This makes it ideal for applications where corrosion resistance is critical, such as marine or outdoor environments.

**High Strength:** 316 Stainless Steel Casting Hinge 50\*50MM are known for their excellent strength and load-bearing capacity. This makes them suitable for heavy-duty applications that require a durable and reliable hinge.

**Aesthetics:** 316 stainless steel has a polished and attractive finish, giving the hinge a stylish and professional look. This makes them a popular choice for applications where aesthetics are important, such as construction or design projects.

**DURABLE CONSTRUCTION:** The casting process creates 316 Stainless Steel Casting Hinge 50\*50MM with a strong and durable construction, ensuring long-lasting performance and durability even in demanding environments.

**Easy to maintain:** 316 stainless steel is relatively low maintenance, requiring minimal cleaning and maintenance to maintain its corrosion resistance and visual appeal. This reduces the time and effort required to maintain the hinges.

---

**Wide range of applications:** 316 Stainless Steel Casting Hinge 50\*50MM can be used in a variety of industries and applications. They are commonly used in marine equipment, industrial machinery, medical equipment, construction projects, construction installations, etc.

Overall, 316 Stainless Steel Casting Hinge 50\*50MM are highly regarded for their corrosion resistance, strength, versatility, and aesthetics. They provide reliable, durable solutions for a wide range of applications, making them a popular choice in many industries.

### **Loading & Shipment**

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
